

# GPS MAZE

**DIRECTIONS:** You must navigate your tractor through the maze of this field to the silo, where you will store your grain! Farmers today use GPS (Global Positioning Systems) to carefully navigate through their fields. A computer in the tractor connects to a satellite to guide the tractor!

## SUPER MATH CHALLENGE

You've found your way to the silo, now practice your math skills so that you can calculate how much you harvested!

1)  $625 \div 25 =$

2)  $1025 \div 5 =$

3)  $2000 \div 8 =$

4)  $144 \div 6 =$

5)  $1414 \div 7 =$
