

Welcome to your My American Farm journey!

Each year, America's farmers work hard to feed, clothe and fuel the world, care for animals, and take good care of Earth's precious natural resources. They do this to make sure that people across our great nation and around the world have the basic things they need to live and thrive. American farmers need your support to make sure they can continue to do this important job now and in the future.

Play all 12 games on My American Farm to discover what you can do to support the sustainability of American Agriculture. Just like we use passports to keep a record of the countries we visit, this passport will help you keep track of your journey through all 12 games on My American Farm.

Get Started...

Cut out the passport shown below.

Apply glue to the back side of the passport cover and fold back to touch the blank side of the paper behind page one.

Fold page two toward page one to make the passport into a booklet.

Play the games on My American Farm to earn stamps to add to your passport.

Cut out each stamp you earn and paste it into the matching box on the passport.

Play all 12 games to complete your passport to sustainability!
